

## American King

This story starts today. It is obvious to most Americans that the American way is in trouble and the system needs repair. The problem is that the government is controlled by corrupt tyrants who have no regard for the American people. The people recognize their helplessness and need for a rallying platform and leader. Their outcry is answered by the emergence of a man who takes action on their behalf as Americas benevolent King. The King rallies the righteous, who join him against the corrupt tyrants who exploit America. The King is on a mission to reintroduce the constitution to the American people and remind them that it is in fact they, who are the AMERICAN KING. Meet the man who brings the King to the American people and the Kings fantastic elusive girlfriend. Meet the millionaire, and the low-rider club leader who join forces with the King. Meet the special government agent sworn to destroy the King, and the police Captain who is caught in the middle. You will find yourself somewhere in the pages of this book, but on which side?
